Can you describe and/or demonstrate the specific impact that TFN funding has had against your initial objectives?	<p>TFN funding enabled our charity to employ a qualified physiotherapist to train our staff; it enabled us to enlarge our physio rooms; buy ultrasound, tens and massage machines. Thus, giving us a fully functioning physiotherapy department, consisting of three full-time assistants working under the guidance for a physiotherapy consultant.</p> <p>Thirty-four boys have undertaken carpentry training for a year and have learnt the basic skills. Six boys showed good aptitude for the work and the training thus enabling them to enter a training school in Dhaka. Our dream is for these boys to start an assistive device centre in Bhola.</p> <p>Our physiotherapy department has improved the living condition of 60 patients over the last year and will continue to do so, and the number of patients treated will increase as our reputation for improving people grows. All the children are treated free but we charge for adults and this helps to generate an income which offsets our running costs.</p>
