

Get Well UK

£11,076

Get Well UK is a young organisation with the potential to radically improve access to healthcare in the UK by making integrated healthcare available through the NHS.

The grant was used to sustain Get Well UK during its early development through 2005. Since July 04, key highlights include:

- Their first contract in Haringey provided 1383 complementary health treatments to NHS patients, helping 132 people.
- Following the success of the Haringey service, they were recommissioned to run the service for another year, and secured a contract in Islington. Following the high demand we secured another contract to keep working in the area.
- Founder Boo Armstrong has been invited to present the work of Get Well UK at more than 10 conferences and events across the UK; including an All Party Parliamentary group at the House of Commons in June 2005.
- Get Well UK was a finalist in the Foundation for Integrated Health's Awards for Good Practice 2005.
