

Pioneers of change

£8299.00

Acts as a catalyst for people aged 25-35 from all over the world to make a decisive move into creating social change. Funds raised today will go towards the shortfall in covering core costs including website development, travel, and IT hardware.

The Funding Network's grant to Pioneers of Change in 2004, went towards hosting several programs and workshops as well as launching a new website. They organised an Arts for Social Change Learning Journey in Brazil in May 2004, our global annual meeting "Summer School" of Pioneers of Change in South Africa in October 2004 and a series of workshops on "Change the Game" in the UK, Botswana and South Africa. They also launched a new interactive web-site for communities to self-organise and for global connections to be made (www.pioneersofchange.net).
